

WHITE PAPER V1.0

# PEPPINA

\$PPNA

Grabe your shoes buddies, choose a comfortable seat in my rocket and listen to my story.

The journey has just begun...

# WHO AM I?

THE FIRST CRYPTO MEME SINGER, I AM A POP STAR

My name is Peppina.

You probably never heard of me because until now I lived in the shadow of a famous frog.

After years of a torrid relationship, he finally forgot me. Why? To get a place in the sun, drunk with the admiration of his new community... I drooled at the bottom of my pond.

But today, the Peppina diva rises! Yes! Several producers are courting me now! They find me beautiful, sexy, talented and strong! Peppina will go down in history!

But I need you, my friends!

Help me to become the first crypto meme artist and to be the first to share my rise to fame! We'll all go to the moon together and Pepe will be jealous of my success!

What else...?

# INTRODUCTION

Welcome to the most amazing cryptocurrency meme coin in the blockchain history.

A team of talents from all walks of life has decided to put themselves at the service of Peppina, a talented singer who, until then, was hidden in the shadow of pepe.

Our goal is to give Peppina a chance to take back control of her life, and to exercise her passion : music & songs. To do this, we have started discussions with music professionals to forge partnerships.

We all have the same dream : to allow Peppina to become known and famous to everyone, through her music.

By doing so, we intend to bring music into the cryptocurrency world and cryptocurrency into the music world. The meme coin enters in another dimension. As for Peppina, our journey has just begun...

# THE PROJECT

Our project has started with a song. An artist from our ranks offered us his work and convinced us all to join his adventure. We started that project from scratch.

A team, with so different talents.

A team of multi-talented individuals, gathered around the same project : Bringing Peppina to life.

Until then, we never worked together, just crypto-lovers convinced by the futur of cryptocurrencies. We discovered among us we had almost all the needed talents to carry out such a project : Web developers, smart contracts experts, marketers, designers, and shillers.

The core of our army – the Peppina army #PEPPINARMY – was forged. And everyone now can join us.
